PROFESSIONAL EXPERIENCE

Software Engineer II

Mercor

August 2024 - Present
Remote, San Francisco, USA

- Building the [Mercor Work Platform](#), an AI-powered talent marketplace connecting companies with global talent
- Shipped Availability + NPS Survey System driving product insights from thousands of users
- Built Prescriptive Work Platform streamlining candidate workflow and work authorization collection
- Improved code quality through testing infrastructure and code review standards
- Delivered 100+ PRs in Q4, consistently exceeding team velocity expectations
- Tech Stack: Next.js, Python, Django, PostgreSQL, MongoDB

Software Engineer

Frappe

November 2024 - June 2025
Remote, Mumbai, India

- Worked on Frappe Cloud infrastructure automation and AWS management
- Added support for custom domains, email, and DNS configurations
- Improved developer experience for Frappe Cloud and Framework users

Co-Founder

Komorebi

October 2024 - December 2025
Remote, India

- Built Employee Identity Management solutions
- Led product development and technical architecture decisions
- Drove strategic vision for next-gen identity solutions

Software Development Engineer

xAGI

April 2024 - November 2024
Remote, Bangalore, India

- Built dynamic [AI Agent Platform](#) and [AI Course Generation Platform](#)
- Spearheaded infrastructure for deploying multiple edge apps on various providers
- Developed AI web apps including voice survey platform and custom AI agents for clients

Software Engineer

Plazza

May 2024 - November 2024
Remote, Bangalore, India

- Built first version of Plazza's Quick Commerce system
- Designed WhatsApp Bot-based medicine delivery system for APR region
- Built microservices using NestJS, RabbitMQ, and PostgreSQL
- Utilized AWS services (EC2, EKS, Amazon MQ, RDS) for scalable infrastructure

Founding Software Engineer - AI

[EquivoxAI \(now Shuriken\)](#)

May 2023 - January 2024
Remote, Melbourne, Australia

- Developed dataset parsing algorithms for LoRA training data for LLMs (Vicuna-13b, LLaMa-2-7b)
- Implemented methods to streamline fine-tuning of diffusion models on human faces
- Built highly interactive AI-first chat playground UIs

Software Development Engineer - Intern

DataEquinox

December 2021 - September 2022
Remote, Kochi, India

- Designed CRM web apps integrating multiple feedback and customer sources
- Created proofs of concept for multi-threaded Node.js backend solutions
- Collaborated with teams of 7+ members
